YOUR HOME COMFORT, SECURITY AND EFFICIENCY ARE IN THE PALM OF YOUR HANDS.

No matter where you go, Nexia™ Home Intelligence offers a new way to take care of your home and family when you're not there. It's possible now for you to manage your home remotely using most web-enabled mobile devices. With just the touch of a button, you can unlock a door or turn on lights for security, or monitor and adjust your heating and cooling from a distance to save energy.

Simply put, Nexia™ Home Intelligence gives you and your family all the promises of home automation in the most simple and accessible way. All so you can connect with your home, even when you're not at home.

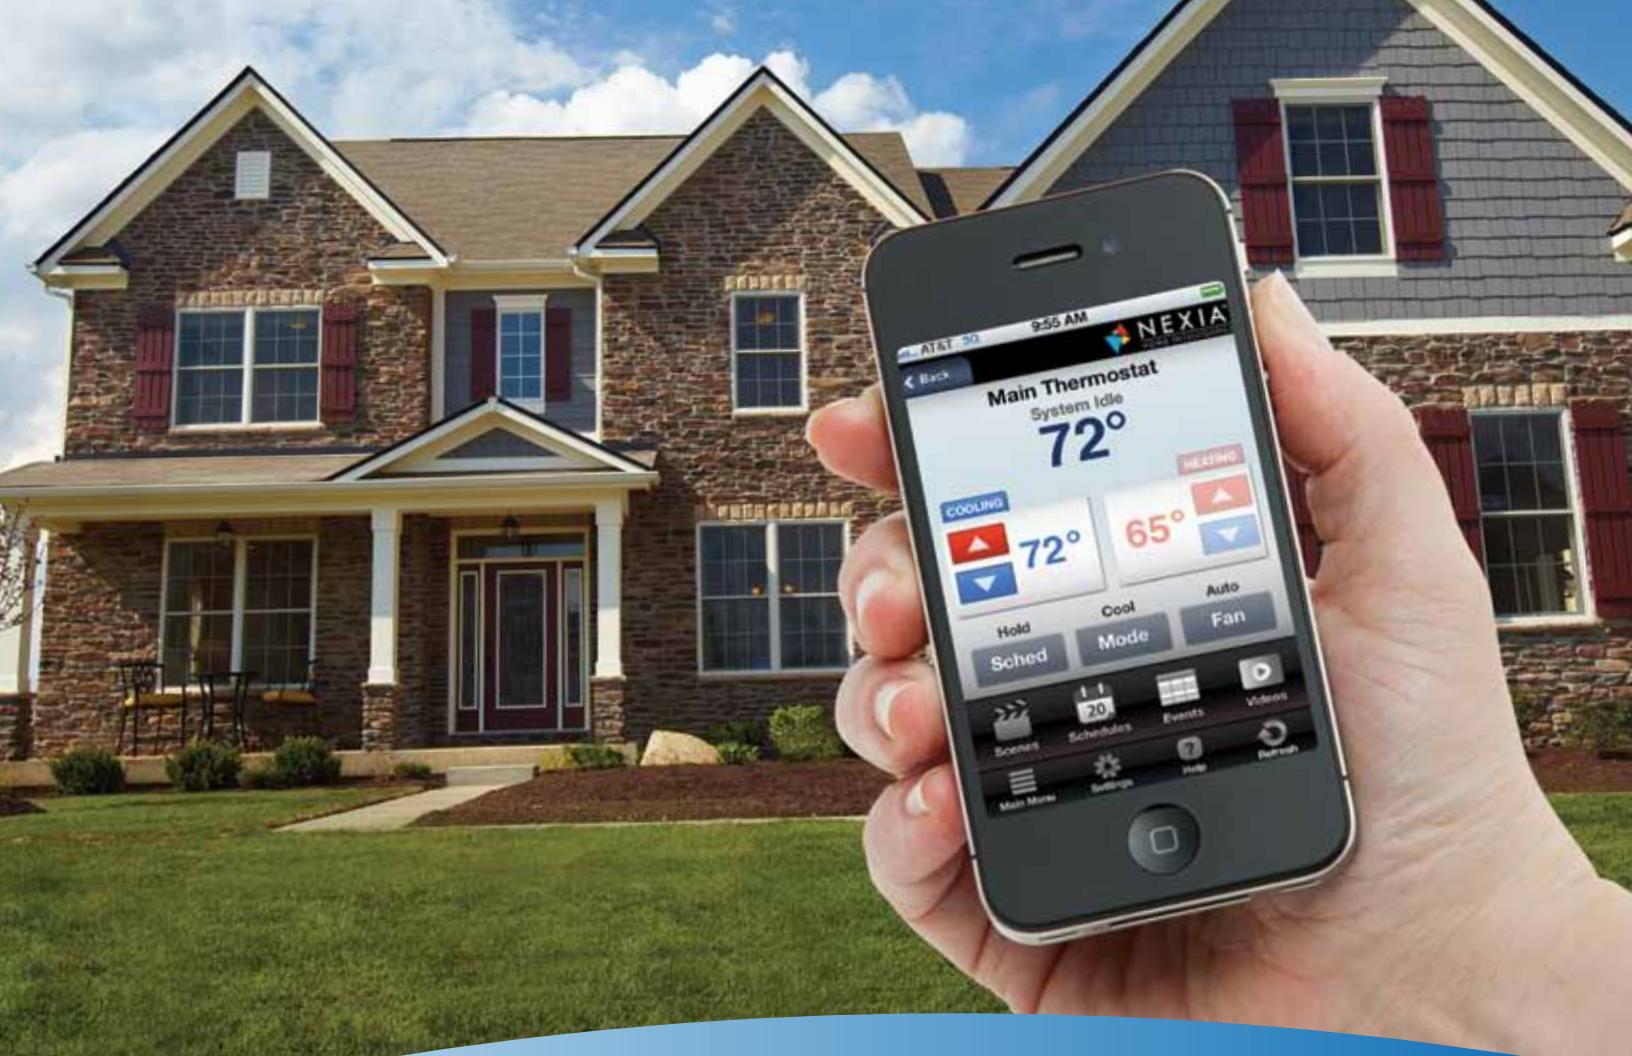

How Nexia helps your home, and your family.

- Come home to perfectly comfortable conditions by adjusting the temperature before you arrive.
- Reduce energy use and costs by putting your comfort system into an energy savings mode when you're away.
- Enjoy the convenience and security of text and email alerts that remind you it's time to change the filter or inform you if your temperature setting is not maintained.
- Keep your American Standard Heating & Air Conditioning system running at peak efficiency with routine maintenance reminders.
- Have peace of mind knowing when your children or family members arrive home safely.

Nexia™ Home Intelligence from American Standard and Schlage® can make everything in your home speak one simple language by combining wireless technology with simple web access.

SMART COMFORT AND EFFICIENCY BEGINS WITH EVEN SMARTER CONTROLS.

Bright and brilliant in so many ways.

With the introduction of the AccuLink™ Platinum ZV, American Standard Heating & Air Conditioning will change your perception of controls forever. Precise temperature control is only the beginning. The Platinum ZV also features powerful zoning and scheduling options, plus smart features like live weather radar, weather alerts, customizable backgrounds and a digital photo display option. And it all comes on a bright, seven-inch high definition color touchscreen. Simply put, it's everything your family needs for your busy daily life.

AccuLink™ Platinum ZV (AZONE950)

Scheduling

Get a handle on your energy consumption with scheduling. The system will keep your family comfortable when they're home, and use less energy when everyone's away.

Alerts and Reminders

The Platinum ZV keeps you informed by alerting you if regular maintenance is required, or if a filter needs changing.

Clean Air Cycle

The Platinum ZV's Quick Clean and Allergy Clean cycles provide boosted clean air for a few hours or a whole day, to combat household odors or provide extended relief to allergy sufferers.

Live Weather

Stay informed of local weather with live updates, alerts and even real-time radar data.

A higher standard of convenience.

Log into your system using most web-enabled cell phones or computers to adjust the temperature or turn lights, appliances or other electronics on or off.

A higher standard of efficiency.

It's simple to manage your energy use and lower your carbon footprint with user-friendly scheduling features, and the ability to switch to more energy-conscious settings while away from home.

A higher standard of comfort.

Nexia™ Home Intelligence gives you greater peace of mind. Know your children have arrived safely to a warm, well-lit home by accessing your home's indoor camera from your work computer.

Manage from a distance.

At work or away, you now have the remote capability to control the comfort, safety and efficiency of your home. Save energy. Check and adjust the heating and cooling settings. All with the touch of a button.

Nexia™ Home Intelligence gives you greater control from anywhere, especially for those times when you might have forgotten to turn off a light or to lock the front door.

Nexia's online portal is a powerful area where you can automate and monitor your system's efficiency.

AccuLink™ Remote Control

The AccuLink Remote Control is easily programmable and filled with features. It's loaded with a multitude of built in sensors, reminders and alerts to help homeowners. Program as many as four energy-saving schedules for every day of the week to reduce energy consumption up to 15%*.

- Backlit screen
- Built in humidity sensor
- Filter service reminder alert
- Maintenance reminder alert
- Out of range temperature alert
- Keypad tamper alert

*as compared to non-programmable thermostats

SMART CHOICES FOR THE BUSIEST OF FAMILIES

1 Platinum ZV Control

- Monitor indoor and outdoor temperatures and your system usage over time to better manage energy and comfort.
- Raise or lower the temperature in your home remotely.
- Create heating and cooling schedules to save energy when family members are away.
- Breathe cleaner air. Quick Clean and Allergy Clean cycles act as a temporary boost to your air filtration, maximizing clean air output for 3 hours at a time or 24 hours at a time, respectively.
- Check current outdoor and indoor temperatures, 5-day forecasts, weather alerts, and local radar imagery on the easy to read, high-definition color touch screen.
- Set Nexia to send you text or email alerts when filters need to be changed or service is required.
- Updatable software lets you add the latest features and upgrades as they become available for the ultimate in home comfort.

2 AccuLink™ Remote Control

- Raise or lower the temperature in your home remotely.
- Use humidity sensor and enhanced dehumidification mode to create a more comfortable environment for everyone.
- Improve comfort during extended "off" periods via air circulation and moisture removal options.
- Set specific heating and cooling schedules with the Nexia interface to operate at peak efficiency and peak comfort.
- Busy families can enjoy the convenience of a 7-day program with up to 4 settings per day.
- Set Nexia to send you text or email alerts when filters need to be changed or service is required.

3 Nexia™ Bridge

- The brain of the system that securely connects most in-home Z-Wave® enabled devices to the Nexia™ Home Intelligence web portal.
- Manages communication on your Z-Wave® network.

4 Schlage® Home Keypad Deadbolts and Levers

- Store up to 19 unique user codes and never lose your house keys again.
- Grant convenient access to your home when you can't be there with a scheduled code.
- Receive text message or email alerts when specific codes are entered at the door, so you'll know when your children arrive home safely.
- Set 24-hour temporary codes from most web-enabled cell phones.
- Choose from 3 finishes to complement your home decor: Bright Brass, Satin Nickel and Aged Bronze.

5 Schlage® Home Indoor Camera

- The Schlage® Camera lets you remotely see what's going on at home through most web-enabled cell phones and computers.
- Video recording capability.

6 Schlage® Home Dimmer Module

- Turn lights on, off or dim them remotely anywhere by phone through the Nexia™ Home Intelligence web portal.
- Incorporate lighting into schedules while on vacation to make your home appear active.
- Multiple Z-Wave® appliance modules can be added to the Nexia™ Home Intelligence system as needed.

7 Schlage® Appliance Module

- Reduce energy use by turning off small appliances when not in use or after you leave home.
- Multiple Z-Wave® appliance modules can be added to the Nexia™ Home Intelligence system as needed.

Just like your family, Nexia™ Home Intelligence can grow over time.

It can do this thanks to Z-Wave®, a radio frequency-based technology that transforms a single device into an intelligent network that can be monitored and controlled wirelessly. Because of this, you can start with a few Z-Wave components that you may already have. And because your home or family needs change

throughout time, with Nexia, you can expand on the number of devices you control at anytime, all the way up to 230. So you can customize and build your home automation system gradually with components like lighting and small appliance modules to cameras, locks, sensors, controls and more.

Designed for comfort. Built to last.

For more than a century, families have trusted American Standard Heating & Air Conditioning to keep their homes comfortable. Today, our home comfort systems continue to push the boundaries of efficiency and performance, while still delivering on our proud history of quality, durability and substantial value. Welcome your family home to a higher standard of comfort. From American Standard Heating & Air Conditioning.

Getting Started with Nexia™ Home Intelligence.

Here's what you need to get started:

- An active broadband internet connection and wireless router with at least one available port.
- A computer with internet access and a supported internet browser.
- A valid email address.
- A compatible cell phone with an internet data plan and SMS (text message) capabilities for remote features.

The Nexia™ Home Intelligence system requires a monthly subscription to enable remote access via most web enabled cell phones and computers.

6 Month* Subscription Trial Period Included

When purchased from an American Standard Heating & Air Conditioning dealer

* Subscription service is \$8.99/month, after first 6 months.

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.
